The Officer's Daily Log

Meet Hotel General Manager Timothy Ellis

Tim Ellis grew up in Radyr, Wales. He studied Hotel Management in college and joined Princess Cruises in 1986. Since then, he has seen the fleet quadruple and Tim was selected as part of the set-up team for several new ships.

As Hotel General Manager, Tim most enjoys meeting passengers and exchanging stories of the high seas. He suggests that the best way to escape completely is to simply let Princess take care of you!

Ashore, Tim lives with his wife in Jakarta, Indonesia, and he enjoys reading, cooking and entertaining.

by Timothy Ellis, Hotel General Manager

Helping you Come Back New is the role I'm privileged to play here on board. If you're seeking a comfortable place to unwind, I recommend reclining in the padded lounge chairs and allowing yourself to be pampered by attentive Serenity Stewards at The Sanctuary. That's our on-deck haven exclusively for adults. Or you may prefer a relaxing massage or invigorating workout at the Lotus Spa® and Fitness Center. Or perhaps you'd enjoy a dip in one of our freshwater pools.

Remember, there are also plenty of entertaining things to do on board Coral Princess®. Some passengers can't resist grabbing a club to practice their putting at the Princess Links. Others are drawn to the great deals you can find at our art auctions as well as our tax- and duty-free boutiques. Many stop by the Internet Café to keep in touch with friends and family back home, or to read touching stories from our passengers and crew about relationships that developed or were rediscovered during a Princess cruise – easily accessible on our blog at linkedbythesea.com.

Whether it's livening the afternoon with a friendly trivia contest or keeping the excitement rolling in our casino, we're all here to make your voyage unforgettable. And each of us on board is proud of our role as The Consummate Host®.

From the Navigator

Today Coral Princess will navigate along the northern coasts of Venezuela and then Colombia as we continue towards Cartagena. Radio Detection and Ranging or radar works on the principle of determining the range (distance) of an object or "target". The range is calculated by measuring the time taken for a pulse of radio wave to travel from our own ship to a target and back. The radar antenna constantly rotates to scan the entire surrounding area.

Public Health Reminder

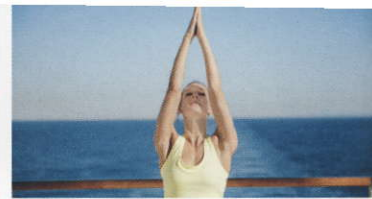

To help maintain a healthy environment, please wash your hands frequently and thoroughly with soap for at least 20 seconds, and rinse them well. We strongly recommend that you follow this procedure each time you use the restroom, after coughing or sneezing and before eating, drinking or smoking. Avoid touching your mouth. We also encourage you to use your private toilet facilities and not the public toilet unless absolutely necessary.

Did you know?

Did you know that the idea for Princess Cruises came about because there wasn't enough hotel space in Seattle during the 1962 World's Fair? Local businessman Stanley McDonald thought of a unique way to solve the problem, and in the process, he started a cruise line... and made history.

Time Change – Ship's clock will be set one hour back at 2:00am between Friday night, December 5th and Saturday morning, December 6th.

Drift away from your schedule,
and towards yourself.
